COURSE

- SDET**
-Qspiders.
- Full Stack Development**
-SDLC.
- Global Bankers Certification Program**
-BankZone.

SKILLS

Testing

- Manual Testing
- Automation Testing

Frontend

- HTML
- CSS
- React

Databases

- Oracle SQL
- MySQL
- MongoDB

Languages

- JavaScript
- Java

Backend

- Node.js
- Express.js

Tools, Platforms and Frameworks

- Bootstrap
- Git
- GitHub
- Eclipse IDE
- MS Visual Studio
- Selenium
- TestNG
- MS Office
- Google Workspace
- Power BI
- Canva

PROFILE

Multi-skilled software professional with expertise in web development, Java, databases, and both manual and automation testing. Experienced in building user-focused applications while ensuring quality through structured testing practices.

PROJECTS

Personal Portfolio Website

- Designed and developed a personal portfolio website using HTML, CSS, and Bootstrap.
- Applied modern UI styling, animations, smooth navigation and designs.
- Integrated GitHub and email links to showcase projects and enable easy contact.

Project Link : <https://github.com/nivas-s-n/Portfolio>

Live Link : <https://nivas-s-n.github.io/Portfolio/>

Furniture Website Project

- Developed a furniture brand using HTML and CSS.
- Styled layouts using CSS for a professional and visually appealing design.
- Ensured responsive and user-friendly design across devices

Project Link : <https://github.com/nivas-s-n/furniture>

Live Link : <https://nivas-s-n.github.io/furniture/>

Blockchain & Crypto Trading Website

- Developed a responsive blockchain and cryptocurrency trading website using HTML5, CSS3, and Bootstrap 5
- Implemented Bootstrap grid system and components for mobile-first responsiveness
- Focused on modern UI design, visual hierarchy, and user-friendly layout

Project Link : <https://github.com/nivas-s-n/blockchain>

Live Link : <https://nivas-s-n.github.io/blockchain/>

Grocery Website Project

- Built a multi-page grocery website using HTML, CSS, and Bootstrap
- Used Bootstrap components such as navbar, cards, grid, and buttons
- Applied custom CSS for styling, spacing, and branding
- Optimized layout for desktop, tablet, and mobile screens

Project Link : <https://github.com/nivas-s-n/grocerie>

Live Link : <https://nivas-s-n.github.io/grocerie/>

DemoWebShop (Testing Project)

Domain: E-commerce

Overview: DemoWebShop is an e-commerce website where users can search for products, select items, and make purchases.

Responsibilities:

- Developed and executed test scripts using Selenium in Eclipse.
- Implemented a hybrid framework, incorporating Data-Driven Framework and Page Object Model (POM).
- Ensured efficient test automation for web application functionality

EDUCATION

Hindusthan College of Engg & Tech BE.,(ECE) (2023)	8.68 (CGPA)
Nalandas Hr Sec School HSC (2019)	65%
Nalandas Hr Sec School SSLC (2017)	88.6%

CERTIFICATIONS

- SQL By HackerRank 
- Business Analyst in QLIK
- AI Fundamentals in Microsoft
- Cybersecurity Essentials in Cisco
- Process Mining Analyst in Celonis
- Network Virtualization in VMWare
- Basics of Managing Money in PRIME5C
- Team Management in Sports in Rajasthan Royals

STRENGTHS

- Self Learning
- Highly job Commitment
- Team worker as well as a Individual worker
- Working with new challenges
- Problem-solving
- Time Management

LANGUAGES

- English (Read, Write, Listen, Speak)
- Tamil (Read, Write, Listen, Speak)

HOBBIES

- Reading sports related articles.
- Learning new technologies and domain knowledge for business related ideas.

Testing

Automation using Selenium Tool

- Proficient in writing **automation test scripts** in **Eclipse** using **Selenium WebDriver**
- Strong knowledge of **locators, waits, and WebDriver/WebElement methods**
- Skilled in **Take screenshot, Actions, Select, and frame handling**
- Experienced in **data-driven testing using Excel and properties files**
- Well-versed in **Page Object Model (POM)** and **TestNG** for test execution and reporting

Manual Testing

- Efficient in writing, executing, and reviewing test cases
- Strong knowledge of **SDLC** and **STLC** concepts
- Detailed understanding in **Black Box Testing**
- Skilled in **Functionality, Integration, System, Acceptance, Smoke, Adhoc, Exploratory Performance, Accessibility, Compatibility, I18N, L10N, Usability, Comparison and Regression Testing**
- Detailed knowledge of **defect tracking** and the **defect lifecycle**
- Strong understanding of **Agile methodology**

Database (SQL)

- Solid Understanding of **DBMS**.
- Good understanding of **RDBMS concepts**.
- Skilled in writing of **SQL queries**.
- Good knowledge of SQL statements: **DDL, DML, TCL, DCL, and DQL**.
- Detailed knowlege in **SQL Operatots**.
- Experienced in working and practicing queries on **Oracle SQL PLUS** and **MySQL WorkBench**.
- Worked on **database creation, table management, and CRUD operations**.

Programming (Java)

- Detailed knowledge in **Java Fundamentals**
- Skilled in **Conditional and Looping Statements**
- Strong knowledge of **OOP concepts**
- Good understanding of inheritance and polymorphism
- Solid grasp of abstraction and encapsulation
- Strong knowledge of **upcasting and downcasting**
- Proficient in **array** concepts
- Good knowledge in **Exception Handling**
- Experienced in writing and practicing programs in **Eclipse IDE**

RESEARCH PROJECTS

- Smart Emergency Vehicle Monitoring and Traffic Management System
- Smart Lender Applicant Credibility Prediction for Loan Approval

PATENT

Applied Patent for project Smart Emergency Vehicle Monitoring and Traffic Management System
